RE: Review of Generic Material

Thank you for requesting that Advarra IRB review your Generic Material. As these items are not study-specific, they were reviewed for content only to assure that the information contained is not coercive and does not state or imply a certainty of favorable outcome or other benefits to potential research participants who inquire about study participation.

The IRB reviewed and approved the following for use as submitted:

- Policy Number: 31 Documentation of Informed Consent for Human Subjects Research (Date of Last Revision: 06/27/2018)
- CONSENT TO ACT AS A HUMAN RESEARCH SUBJECT- SHORT FORM (Version: January 2011)

If there are any changes to the approved material, additional IRB approval will be needed prior to use. This includes changes in relative size and type of font in material to be viewed by potential subjects.

Please be advised that each study specific short form ICF must be submitted for review and approval prior to use.

If you have any questions or need assistance, please do not hesitate to contact us. We look forward to continuing to work with you.
