Standard Operating Policies and Procedures**

Policy Number: 25

Title: Investigator and Research Personnel Conflicts of Interest

Date of Last Revision: 07/28/06, 10/03/10, 08/08/11, 04/03/22

Policy:

It is the policy of the UC Irvine (UCI) Institutional Review Board (IRB) that all disclosable financial interests be captured as part of the IRB application for review by the COIOC and the IRB to assure protection of the rights and welfare of participants in human subjects research.

Disclosable Financial Interests are any of the following financial interests of any key research personnel (Lead Researcher and all individuals responsible for the design or conduct of the study), or his or her immediate family (spouse, domestic partner, and child), in aggregate:

1. Ownership interest, stock, stock options, or other financial interest related to the research, unless it meets all four tests:
 - a. Less than \$10,000 when aggregated for the immediate family and
 - b. Publicly traded on a stock exchange and
 - c. Value will not be affected by the outcome of the research and
 - d. Less than 5% interest in any one single entity.
2. Compensation related to the research, including salary, consultant payments, honoraria, royalty payments, dividends, loans, or any other payments or consideration with value, including payments made to the University Health Sciences Compensation Plan, unless it meets both of the following tests:
 - a. Less than \$10,000 in the past year when aggregated for the immediate family and the
 - b. Amount will not be affected by the outcome of the research.
3. Proprietary interest related to the research including, but not limited to, a patent, trademark, copyright or licensing agreement.
4. Board or executive relationship (e.g., director, officer, partner, or trustee) related to the research, regardless of compensation.

Procedure Number: 25.A

Title: Procedure for Investigator and Research Personnel Disclosure of Conflicts of Interest

Procedure:

This procedure outlines the process for reporting and disclosing any conflicts of interest in human subjects research.

I. Lead Researcher (LR) Responsibilities

- A. A LR who is conducting human subjects research at UCI or utilizing UCI resources or facilities is required to disclose all disclosable financial interests:
 - 1. That would reasonably appear to be affected by the research; or
 - 2. In entities whose financial interests would reasonably appear to be affected by the research.
 - 3. This requirement applies to all studies, sponsored or non-sponsored.
- B. The LR is responsible for submitting financial disclosures, if any, from all research personnel listed on the application and protocol.
- C. Disclosures must be submitted:
 - 1. At initial IRB submission via the electronic IRB submission and management system;
 - 2. As applicable through the Amendment Application.
 - 3. Within 30 days of becoming aware of any previously undisclosed financial interest using the "Disclosure of Investigator's Financial Interests" form.
- D. The Investigator must comply with the recommendations of the Conflict-of-Interest Oversight Committee (COIOC) and IRB to minimize the conflict.

II. IRB Committee Responsibilities

- A. The IRB will have final authority to decide whether an investigator's financial interest and the COIOC management plan, if any, allow the research to be approved.
- B. The IRB will review the research protocol along with the COIOC report and will either accept the management plan or revise the management plan to ensure the rights and welfare of the participants are adequately protected.

III. IRB Analyst or Higher Responsibilities

- A. When the IRB receives an IRB application where a researcher has disclosed a financial interest:
 - 1. Ensure that the COIOC Ancillary Review tab has been selected in the electronic IRB submission and management system.
 - 2. The COIOC Administrator will provide the COIOC report in the electronic IRB submission and management system and "clear" the COIOC Ancillary Review tab.
 - 3. IRB review runs concurrent with COIOC review.
 - 4. IRB final approval is pending:
 - a. COIOC review,

- b. Acceptance of the COIOC recommendations by the Associate Vice Chancellor for Research, utilizing the current email template language.
- c. After reviewing the Associate Vice Chancellor's recommendations, the IRB Chair / Vice Chair (VC) may accept or recommend full board IRB (re)review. If the IRB Chair / VC accepts the COIOC recommendations and the IRB documentation includes the required statements, IRB approval may be released. (See Section II above.)
- d. If the IRB determines that additional protections are required, the IRB Administrator informs the LR and the COIOC Administrator.

IV. Conflict of Interest Oversight Committee (COIOC) Responsibilities

- A. The COIOC considers the research project according to traditionally held principles of ethical conduct and academic freedom. The COIOC evaluates whether the financial interest will adversely affect the integrity of the research; there is sufficient separation of University and private interests, the proposed research is appropriate to the University, the teaching and research environment is open, freedom to publish and to disseminate research results is preserved, the University's intellectual property rights are protected, the University's facilities and resources are used appropriately, and the University receives proper compensation for their use.
- B. The COIOC also considers the effects of the disclosed financial interests on the rights and welfare of the human subject participants. The COIOC considers whether the rights of the participants would be better protected by reduction or elimination of a financial interest, separation of responsibilities for financial and research decisions, additional oversight, implementation of an independent data and monitoring committee, or any other mechanism that would mitigate the effects of the financial interest.
- C. The COIOC makes a recommendation on each disclosure to the Associate Vice Chancellor for Research, who decides whether the financial interests are acceptable or should be reduced, managed or eliminated.

V. COIOC Administrator Responsibilities

- A. The COIOC Administrator pre-reviews the Disclosure of Investigator's Financial Interests form to assure that the information is complete and meets the requirements under COIOC policies and procedures.
- B. The COIOC Administrator will prepare reports including, but not limited to, information obtained from a COIOC questionnaire completed by the Investigator and a copy of the protocol, for consideration by the COIOC.
- C. If additional information regarding an Investigator's financial interests is required, the Administrator will contact the Investigator and request the additional information.
- D. The COIOC Administrator enters the decision of the Committee into the COI database.
- E. The COIOC Administrator forwards the decision of the Associate Vice Chancellor for Research
- F. Once the Associate Vice Chancellor for Research accepts the financial

disclosures, the COIOC Administrator prepares the COIOC report to inform the IRBs of the results of the COIOC evaluation and management plan. The report includes the:

1. IRB Protocol number and study title;
 2. Disclosing Individual's name;
 3. Lead Investigator's name;
 4. Study Sponsor and Award Type;
 5. Description of the disclosable financial interest;
 6. Scientific rationale for the research;
 7. The COIOC determination;
 8. An explanation for the determination; and
 9. Suggested informed consent language, if any.
- G. The COIOC Administrator sends a memo to the Investigator via e-mail of the outcome of the COIOC review.
